LETTERS FROM THE INTERIOR OF THE STATE.

[FROM OUR TRAVELING CORRESPONDENT.]

ALBANY, July 27, 1867.

We left Oregon City at 9 A. M., on the steamer *Enterprise*. She had on board twenty-five tons of freight, and about thirty-five passengers, among whom were Mrs. Senator and Mrs. E. Corbett and Mrs. W. S. and Mr. J. W. Ladd, on their way to Salem to meet their "lords" who have just returned from the coast and "Reservation." Senator Corbett is a member of the Committee on Indian Affairs, so he has been paying a special visit to Mr. Lo, to see what he most needs, and how he is treated by those persons under whose guidance and care he has been placed by the government. But I must not go after Senators and Indians, for I want to tell you how the steamboat captains get their boats over the "bars" at "dead low water." When the river recedes to the lowest stage, they have at each of the shoalest bars, a large cable, with one end fastened on the shore and the other end (to which is attached a buoy) floats in the water, at the lower end of the bar. She is run upon it, and the cable is caught up and made fast to the capstan or windlass—then all hands apply their strength to the windlass until the cable is drawn as taut as possible. When this is accomplished the Captain rings the bill to back her. The cable keeps her from going back, while the great stern wheel, backing with all the power of the engines, throws the water forward under the boat, until it just about floats her, then the order is given to reverse the engines and "go ahead" with all speed—thus, by the draft on the cable by the windlass and the force of the engines, she is driven ahead several feet. The same operation is repeated until the bar is crossed. It is a novel idea that a steamboat can lift herself over a bar upon which is less water than she will float in, by "pawing" water under herself with her wheel to ride upon.

It seems wonderful that the Willamette river, above the Falls, is at all navigable for steamers during its low stages; and yet, as a general thing they make their trips with marked regularity. I do not see how freight and passengers can be carried any cheaper than they are, considering the wear and tear upon boats, jamming among stumps and snags and grinding on the rough, stony bottom, and the great expense of pulling snags out of the channel and improving the bars and shoals.

"Matheny's" bar is the shoalest place in the river, but when the P. T. Company complete their wing dams they expect to finish this season, it will obviate the present difficulty of passing that point.

SENATOR WILLIAMS,

spoke to a large and attentive audience in Albany on Saturday. I never listened to more sound political arguments, and I have heard many others express similar opinions. He occupied nearly three hours, yet no one seemed tired except a few Copperheads, who fled before the blazing truths he uttered. I cannot refrain mentioning a very *gentlemanly* (?) fellow who sat directly in front of me during the speaking. The luxuriant growth of uncombed, coarse brown hair mixed with gray, not only covered his cranium, but reached well down towards his eyes. In his mouth he had a large pipe, notwithstanding ladies sat very near him, and looked very much as if he had forgotten to change his shirt last Sunday. As soon as I had taken a good look at him, I said to myself he must be a Constitutional Democrat, for who else could, under such circumstances, assume such an air of foolishness? When the Judge had got about half through his speech, he happened to say "negro," at which the fellow bolted, and as he retired down the aisle, I fancied that I could see him squinting back over his shoulder to see if "nigger" equality was at his heels. P. W. G.

A RAILROAD ACQUAINTANCE.—A Western railroad conductor tells the following capital bit, of which the *Times* of Cincinnati "makes a note:"

"One day last week," said he, "there came on board the cars, from one of the up country stations, a very pretty, genteel young lady, on her way to this city. She was alone; so I waited upon her to a good seat, and made her as comfortable as possible. It was a few minutes before the starting hour, and she was so agreeable and so talkative, that I lingered, and we had a pleasant chat.

"Afterward, when collecting the tickets, she detained me again an instant, and gave me some fine peaches, which she said came from her friend's orchard in the country; and really, I began to think that I had not had so charming a passenger for many a day.

"Well, we arrived at the depot; and then I attended her to the carriage, handed up her carpet bag; and, after all, what do you think she said?"

Now we thought of course that the young lady would say, very politely, "Thank you, sir"—smile like a gleam of sunshine—the carriage roll off—and our friend John Van Dusen, the gentlemanly conductor, would bow an adieu, and with a sigh turn away, and forget the matter, and we stated that as our natural supposition.

"No," said the conductor, "She did no such thing; but just as her foot was on the step she turned, and with a sort of look I can't describe, observed:

"You must consider this, sir, merely a car acquaintance. You must not expect to be recognized if we meet anywhere else."

John drew a long breath.

"What did you say?" we asked.

Why, I thought this very uncivil, to say the least, so I replied very quickly:

"Certainly not, Madam, I was just going to remark that you must not feel slighted if unnoticed by me anywhere, except on the cars, for really we conductors have to be careful about our acquaintance!"

"And the lady?" said we.

"She looked quite silly as she drove off," replied John.

A keener response to an example of female "snobism" could not have been made, far better deserved.

SQUEEZING.—The Pike county (Ill.) *Democrat* is responsible for the following:

At a dance the other night, not a thousand miles from Pittsfield, two chaps got mighty struck with the same gal. She, not willing to show special favor to either, declined dancing and seated herself in the back part of the room. Being chilly, the fair maiden wore a large shawl, and one of her admirers concluded to slip his hand under the shawl and try what effect squeezing her hand would have. He went for it and succeeded. Lord! how happy he was. He squeezed, and she squeezed. He felt gloriously all over and she evidently felt gloriously too. After quite a joyful time spent in this way, the lady threw back her shawl, and revealed to a little crowd standing near, our two youths squeezing one another's hands most lovingly. It don't do to say "squeeze" to either of them since.

STORM SIGNALS.—This plan of the storm signals during harvest is by means of the telegraph and is to convey the news of a coming storm to each of the county seats, hundreds of miles in advance, in the direction in which the storm is traveling. Then at each county seat a cannon is to be fired three times, which will warn farmers throughout the whole country that a storm is approaching, in time to get their grain or hay under cover or in a situation to shut out the rain. A telegraph company, by arrangement with the county officials in several of the States, is about to put the plan into practical operation, in time for the coming harvest. It is believed that a large portion of the many millions of dollars in grain or hay which are actually damaged by rain during harvest will be saved by the universal adoption of this simple plan throughout the United States.

At a fancy dress ball in Paris recently, a lady was seen in a very low bodied dress, while floating and waving an abundance of green gauze. She was politely asked by a gentleman what she personated. "The sea, Monsieur." "At low tide, then, Madame." The lady blushed and the gentleman smiled.

New York Shop Girls—Miseries and Mysteries of Sewing Women.

A correspondent of the *Watchman and Reflector* is presenting some pictures of life among the lowly in New York, some of which are enough to cause any friend of humanity to weep as well as tremble, in view of the temptations to which thousands of the innocent but unfortunate are exposed:

Last week I gave a description of the every day life of one of the 30,000 sewing girls of New York. I shall this week present another picture of a different phase of the same sad life—for the contemplation of the philanthropist and the Christian.

One day last winter there came into my office a young girl whom I had known when she was a little child, light-hearted and happy, on her father's farm in New Jersey. Misfortune overtook her father, and she was eventually left an orphan. Having an uncle in New York, she came here to live. They were in good circumstances, and made Minnie welcome; but a few months later the uncle was led into speculation, and lost everything he had. In this position of affairs Minnie sought for employment and found it, but such employment! She came to me, having learned my whereabouts, to solicit aid. She was now eighteen years old, and remarkably beautiful. It was piteous to listen to her story.

"I get up at six o'clock" in substance, "dress myself in the cold, eat a mouthful of something—little enough there is to eat—and hurry to the shop. We are not allowed to warm ourselves by the fire, no matter how cold or wet we may be, and all day long I am shivering. My work is making paper bags, at thirty-five cents a thousand!"

"And how many can you make in a day?"

"One thousand, when I work hard."

Thirty-five cents for a whole day of hard labor, in a cold room, surrounded by girls who are prohibited strictly from conversing with each other, and among whom it is a grave offense to look out of a window or stand a moment by a stove.

"The first day I was there," said Minnie, "I felt so bad that I couldn't keep from crying; and when I turned and spoke to the girl who worked next to me, she started in affright, and made no answer. The overseer of the room is a cross man, and he came and told me to go home if I wanted to talk—they didn't allow any gabbling there."

I put on my overcoat and walked with Minnie to the shop where she worked, to see for myself. It was a long, barren room in the fourth story of the building, with a chilly air upon it that sent a shiver through me. It was about noon time—a little after—and the overseer chanced to be away. About a score of girls, from ten to fifteen years of age, were seated at long tables, with piles of brown paper and pots of paste before them. Great was their astonishment when I took my place by Minnie's side to watch her work, for there was a card on the door which said, "Positively no admittance." These faces were, without exception sad and sickly, and they bent over their work with a weary air that touched me almost to tears.

The most expert of these girls is able to earn about three dollars a week, I was told—many earn less. None of them pay less than three dollars a week for their board. How, then, do they live? How clothe themselves? Can you unriddle this puzzle? Good men and women are shuddering over it every day.

It was Minnie's misfortune that she had never been taught to work. How could her parents have foreseen her destiny? I sought long in vain to find her employment more remunerative or which she was capable of engaging. While thus seeking, I heard from her occasionally. First there came the pleasant tidings that the overseer treated her with especial kindness—spoke to her cheerfully, and gave her the lightest work to do that the place afforded.

She was so gladdened by this, in the innocence of her heart! And then, not long after, came another word; he had grossly insulted her, and when she repelled him, had turned her off with curses.

Does my reader understand what all this means? I have related the incident only to illustrate, as modestly as may be, the perils which beset the shop girl.

You will fail of recognizing the ghastliness of this subject if you lose sight of the fact that those who suffer thus and are tempted thus—who lead a life of friendlessness only exchangeable for a drearier horror, of hunger and cold and exhaustive toil, the release from which can be bought but with death or shame—are a vast army in numbers. There are thousands who want even for the miserable privileges of such toil as I have tried to picture—who perish by the wayside year by year. No night passes over your head that does not cover with its darkness some poor girl wandering the streets of New York hungry, weary, friendless, utterly forlorn; who has no refuge but to give herself into the hands of a policeman to be taken to the station-house that she may sleep on its bare floor in company with thieves, drunkards and shameless ones of both sexes.

Much attention is of late being directed to the subject of woman's rights, in the nobler meaning of the term, and it is well that this is so. The more fully the rising generation of girls are taught to be self-helpful, the better it will be for the future welfare of the land—the more narrow will become the spread of distress among the sex as they become widowed, orphaned, or otherwise protectorless. Meantime, here in New York is the existing evil of the hour, which ought not to be, must not be, overlooked. God speed the work of all who labor in this field.

RECIPE TO CLEAN WOOL.—Hunt Brothers, of the North Bloomfield Custom Woolen Mill, N. Y., give the following recipe for cleaning wool:

To two pailsfull of water add a quart of soft soap and a half pint of common salt. Heat from 150 to 180 deg., or a little warmer than the hand can bear. Put in all the wool that will stir conveniently, and let it remain fifteen minutes, moving it in the kettle occasionally. Then take it out, let it drain, return the drained liquor to the kettle and add all the water needed. Repeat the process, and occasionally add a little soap and salt. After the wool is sufficiently drained, simply rinse it out well in cold water and you will then have it white and soft. Never let wool boil in the liquor, as that will fix the gum, render the fibre stiff and gray, and unfit it for soft and flexible yarn. Fine wool needs more time in the kettle than coarse. Taggings may be cleansed in the same manner, by clipping off all the hard matter that cannot readily be compressed between the thumb and finger.—*Rural New Yorker*.

SIZE OF FEET AS AFFECTED BY LOCALITY.—The New York *Hide and Leather Journal* notices a few of the differences in the shape of the pedal extremeties of the people in various sections of the country:

Shoes made for one locality are not adapted to all. For instance, a broad shoe, wide in the shank, is best adapted to Eastern trade, a narrow sole meeting with but little favor. Rhode Island, though the smallest State in the Union, can boast of having some of the biggest feet that ever trod sole leather. The Middle States require slimmer shoes and higher insteps than in the East. The instep grows higher as we progress southward, commencing with Virginia, and the foot shorter and more plump. Rarely at the North, does a full-grown man wear less than No. 6, running up the scale of sizes to No. 14; but, at the South, many a full sized man wears fours and fives, and seldom over nines. The ladies of the South have confessedly always had the smallest and prettiest feet of any race in the world.

A NOVEL STRIKE.—The ratcatchers of Birmingham, Wolverhampton and Walsall, being dissatisfied with the present rate of remuneration for rats, have requested an advance of 4s. 6d. per dozen, and their demand not being acceded to by the purveyors for "ratting" purposes they have struck. As may be well imagined this strike has caused the greatest inconvenience to those who delight in matches, and a short time since one of these contests, which was to have come off at the Duke of Devonshire, Great Ann street, had to be postponed through the vermin contracted for not making their appearance. Mr. Redman had made every exertion to procure the animals, but he was not able to get any for "love or money."—*Bristol Post*.

A Virginia negro, according to an exchange, on hearing that Congress was going to give land to the darkies said: "Land! de debil! I'se free now and don't want no land. I'se gwine to get worms and go a fishing."

WEDNESDAY MORNING, JULY 31, 1867.

Apology for the Mexican Tragedy.

If the French autocrat is capable of a remorseful feeling, it would seem that he ought to be moved thereto by a consciousness that he is directly chargeable with the misfortunes of the unhappy prince who has atoned with his life for his temerity in attempting to found a monarchy in Mexico. Therefore it is not surprising that the responsible author of this tragedy should have written to the brother of his victim, deploring his own agency in the affair, and attemping to frame an excuse for his own criminality. Conscious that the general voice of mankind is condemning him for the unhappy events which have transpired in Mexico, he confesses his responsibility for their occurrence, and endeavors to justify himself for the course has taken. Like every other ambitious and unscrupulous potentate, he undertakes to justify his action by asserting that it was dictated by benevolent and liberal motives, and by a regard for the welfare of the human race. "My only object was to extend to Mexico the influence of our civilization." This is the last refuge of one who feels that he has justly earned the reprobation of the world for having suggested, undertaken and carried on a scheme which was a crime both against the people of Mexico and against those whom he drew into the undertaking and then abandoned to their fate. France went to Mexico with ambitious designs. The prize was a tempting one, and spurious claims were brought against the country to justify the invasion. But to conquer Mexico was not an easy task; before it was completed our civil war was ended, and the French Emperor, dreading the interference of this country in his schemes of robbery, withdrew and left Maximilian to contend alone. In the fate of this unfortunate man there is little to excite the sympathy of Americans, except the fact that he was so perfidiously dealt with by the author of his calamities. He was little else than a freebooter under guise of an honorable name, and only received the treatment he awarded to others. But no declaration from the French autocrat of the purity of his own motives in setting this scheme on foot, will justify him before mankind. Whenever this tragedy is mentioned, he will be execrated as its author. It was a crime against humanity, and its chief perpetrator has reason to dread the verdict of the world.

HANDSOMELY DONE.—The New York *World* is evidently at a loss to find terms to express its admiration for the colored people. But it must be owned that in spite of this embarrassment, the following from that paper is quite handsomely done:

> "Perhaps the negroes of the South will soon perceive, what their colored compatriots of the North have already perceived, that the true friend of the negroes in this country is the Democratic party."

"Colored compatriots of the North" is unusually neat and complimentary. The assertion that "the true friend of the negro in this country is the Democratic party," sounds pretty enough; but it is easy to see that there must be some mistake about this professed Democratic love for the negro, or that that party has changed its tastes greatly since July, 1863, when it hanged, flayed and roasted negroes in the streets of New York city, pulled down colored orphan asylums, and played other freaks of a similar kind.

The mutations of Copperheadism are among the most singular phenomena of the time. We have already alluded to the fact that the Democratic platform of California begins with the strange declaration: "Resolved that the General Government is the paramount Government of the country." Strong as this is, it is fully equalled by one of the resolutions of the platform adopted by that party in Pennsylvania a few weeks ago. This resolution declares that the "Union of the States is perpetual and the Federal Government supreme." Think of the Democratic party adopting such ideas as these! And think, further, of anybody attempting to harmonize such doctrines with the position held by that party in 1860-61, and for years prior to that time! This is the party which prates of the "Inconsistency of the Radicals."

A case of surgical instruments which had been stolen at Albany was recently found under mysterious circumstances. It is surmised that one of the fast boys of that town may have been the thief. If so this is a promising beginning. If that lad only goes to the Capital and sets up in business he may succeed in a few years in making a good haul out of the "school fund." Possibly by lurking around the Legislative halls he may be able to abstract a "fee bill" or something of that sort in which he may be personally interested. He may even become an editor at the Capital, through it's ten to one he will get "horsewhipped" before he learns to be civil. But after becoming converted to the polite he will probably assume a great deal of "tone" and rail at other people for their "scurrility."

A distinguished citizen of New York (who is not afflicted with negrophobia) happened to be in Washington City on the occasion of the late election there, when colored citizens voted for the first time and defeated the Democracy. One of the chivalry accosted the New Yorker with: "You think niggers should vote, do you? Make them your equals, would you? Want them to marry your daughters, eh?" The reply to these profound Democratic arguments was as follows: "My friend, if the right of suffrage be restricted to those to whom I would give my daughters, there would be very few voters, and you would not be one of them." This closed the argument.

The political cauldron is beginning to boil in Montana. The general election will be held in September. In all parts of the Territory the Republicans are organizing for a vigorous effort. Their Convention will be held on the 3d of August. The Helena *Herald* is going in vigorously, as shows the following from its columns:

> We can have a delegate to Congress who will do something else besides draw his pay; we can have a corps of county officers that shall be something else than a squad of ex-rebel soldiery and their camp followers. The question is, "*Will we?*"

A gang of horse thieves is said to infest Walla Walla valley. They make their headquarters on the Tucanon. Their plan, says the *Statesman*, is to go around the valley, professing to be in search of missing animals. In this way they become familiar with the stock, and when an opportunity offers they run off those they fancy, always selecting the best animals.

STATE ITEMS.

Some of the mines in Jackson county still yield very good pay. The diggings in Jump-off-Joe are being worked with good results, though there is a scarcity of water.

The soldiers of Company "I," First Oregon Infantry, lately mustered out at Jacksonville, presented their commander, Capt. Spragne with the colors which the company has born for more than two years. They were originally presented to the company by the ladies of Jacksonville.

The financial condition of Jackson county, says the *Sentinel*, is healthy. The county portion of the receipts for the fiscal year ending July 12th, were $18,864 63—the expenditures for the same period $17,430 48 giving a gain of $1,434 15, of which $502 37, was applied to cancel outstanding warrants, leaving an addition to the cash balance in the treasury of $921 78.

The Jacksonville *Sentinel* has the following: Some years since a United States Surveyor was prosecuting his surveys and explorations through Rogue River Valley, and among other singular things, he found a large black rock, isolated and alone. The Surveyor broke off a specimen, and with others submitted it to Prof. Jackson, of Boston, who, by an analysis, found it to be a meteoric stone. The Surveyor on being questioned as to where the stone was, said that he could not tell the precise spot without reference to his papers, but that the rock was about four feet out of ground, four feet in diameter, and situated on a hill, which was destitute of timber, and other rocks, in Rogue River Valley. Before the location of this rock could be more minutely ascertained, the Surveyor died. This is the largest stone of the kind ever discovered, and could it again be found, it would be of great interest to the scientific world.

Judge Leonard, of the Supreme Court, overruled the motion of Counsellor Cummings who sues Bennett of the *Herald* for libel. He stated that defendant's answer is not definite enough. This will probably be fatal to the case.

The government steam cutters *Cuyahoga* and *Miami* were sold at auction to-day. The former brought $31,000 and the latter $71,000.

It is stated that the liabilities of the Unadilla Bank are a quarter of a million. Some state them at a million. The depositors will not receive ten cents on the dollar. A receiver from Washington has been applied for. Great distress prevails about Unadilla. One widow went crazy. Another attempted suicide.

MEMPHIS, July 29.—The place is in a feverish excitement on account of apprehended riots on election day, Thursday. The sheriff has issued a call for 1,500 men to keep the peace. The Mayor has issued a proclamation asking the sheriff to revoke his order, as he is assured that General Thomas, with a regiment of regulars, will be there. Also Gen. Forrest, who has agreed to take command of 200 volunteers to act in concert with the police. Scaflor and the counsellors of Maximilian imprisoned by the Liberal Generals at Queretaro, have not been shot. They will be sent to their respective States for trial. Marquez was levying contributions in the capital one hour before leaving. The Liberal Government has sentenced all the Imperial prefects to exile for six years, and their Secretaries for two years. Escobedo addressed the subaltern officers of the Imperial army before their release, saying the supreme government might take their lives, but it was always magnanimous, and forgives them because it expects their future conduct will correspond with the clemency now awarded. Passports were given them to any port they desired to reside.

BY ATLANTIC CABLE.

LONDON, July 29.—The sincerity of the denial of the *Moniteur*, relative to war reports, is doubted. The *Times'* city article is of opinion that the warlike rumors will have the effect materially to check trade until next spring.

PARIS, July 29.—The *Moniteur* declares the prevailing rumors of war are entirely without foundation. The relations of France with all European powers are peaceful. It denies that new military camps are contemplated, and reserves of artillery and cavalry horses will be sold to the farmers.

VIENNA, July 29.—It is denied that the Hungarian guards are to be re-established, though several meetings of the honoreds of 1864 have recently been held in Hungary with the object to effect an organization. No action was taken either by the Austrian or Hungarian Government to that end.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, July 30.—No Eastern news to-day.

Between 9 and 10 o'clock this morning, Samuel C. Hopkins went into A. J. Pates gunstore on Sacramento street, and said he desired to purchase a derringer pistol, a pair of which were shown him, and he asked to have them loaded. This was done. He then said one would answer his purpose. They then told him they could not break a set, and the pistols were put away. A smaller one was then shown him, and he said that would do. It was loaded for him, and while this was being done he walked up and down the room, but no other peculiarity of conduct was noticed. When loaded, the pistol was handed to him and the proprietor turned toward his desk. In an instant the report of a pistol was heard and Hopkins was seen with the smoking weapon against the right side of his head. He staggered backward and fell to the floor, the brains and blood oozing from the wound near his right temple and over the ear. Surgical assistance was immediately summoned and the Coroner was informed of the occurrence. He hastened to the spot and found Hopkins still alive, but with his right side entirely paralyzed. The wound was pronounced fatal, but as he still breathed and stirred, he was not taken from the store. He was formerly, and for ten or twelve years, connected with the firm of Coghill & Co., as employee and partner. No cause is assigned for the suicide. He never spoke after the shot was fired. Mr. H. was well known in San Francisco, and was formerly in good circumstances.

This morning about 2 o'clock, a man named Hill, who has been living for two or three years at the New England House, fell out of his bed and died in a few minutes. He has been ill for a year.

Early this morning a man from Coloma, Eldorado county, named J. H. Bachelder, coming out of the Miner's Restaurant, fell near the door and immediately expired, with blood issuing from his mouth.

Early this morning a man named N. T. Jose was found hanging by the neck in a cabin at the south end of Long Bridge, where he was stopping with several other men employed by Fishing & Co., at that point. He was still warm when taken down and could not be resuscitated. He had got up in the night and tied a small cord or rope around one of the beams and to his neck, and stepping off the stool on which he stood while adjusting the rope, swung clear from the floor.

After to-morrow the new Merchants' Exchange, on California street, will be open only to subscribers. The terms of subscription are two dollars for merchants and one dollar for employees, per month.

The Panama steamer departed this morning with but a nominal flour freight for New York.

The extreme markets at present do not justify for ther shipment *via* Isthmus.

SAN FRANCISCO, July 30.—The most horrible tragedy for some time past occurred near Oakland. A man named Sanfly has resided with his wife and one child at Oakland Point, Alameda county, and followed the business of raising and selling stock. Last evening he and his wife went to a neighbor's house on a visit and left the child at home with a Chinese servant. About 11 o'clock they returned and found everything about the house apparently as they left it, and retired. About one o'clock this morning four men entered the house and attacked while asleep in their bed. They used a hatchet, or other dull weapon, or a bloody murder would have been instantly accomplished. The blows were aimed with savage fury at the heads and faces of the victims, inflicting some horrible and ghastly wounds, which may yet prove fatal. Mr. Sanfly, after the first storm of blows, was barely able to cry for help. The Chinaman then sprang out of bed and ran into the room when the four assassins fled in haste, leaving Mr Sanfly unconscious, and his wife writhing in agony. The Chinaman did not run at once to alarm the neighbors, but took such means as he could to staunch the wounds of Mr. and Mrs. Sanfly. At four o'clock he left the house and called on neighbors for help. People hastened to the house and found Mr. Sanfly and his wife in the bed in a helpless condition, the former still unconscious, but Mrs Sanfly was able to speak and give some particulars of the horrible affair. She describes four white men, and says the blows were inflicted with an axe or hatchet. The tragedy created intense excitement in Oakland and vicinity, and the police and citizens are making every effort to get on the track of the perpetrators. A few days since Mr. Sanfly was paid a considerable sum of money, and this fact may have tempted the robbers to their bloody work.

FROM LEMHI.

The latest information we have obtained from Lemhi comes through the Lewiston *Journal*. That paper says:

Mr. Boice, of the firm of Boice & Brothers, of Salmon City, has just arrived from the Lemhi mines. He came *via* Elk City, was fifteen days on the road, and traveled the old Nez Perce trail. He reports that many of the claims opened have proved valueless; others have been abandoned—but others still have been found to pay; that the camp is not a failure, though like all new camps now-a-days, has been overdone; that the diggings will probably sustain a population of six or eight hundred men; that large parties have gone out prospecting, and that a creek some thirty miles this side of there, called Hughes creek, has been discovered, upon which good prospects had been obtained, that some six hundred men are now at work upon the creek, making extensive arrangements for mining. The gold thus far has been found upon the bed rock, and a good camp is likely to be established. The distance from Elk City in a direct line to Hughes creek is less than a hundred miles. Further developments may prove it to be an important discovery for our section of country. We hope to see a little energy at least manifested on the part of our community towards opening a trail to the point in question. Trade is altogether too dull to let such things pass indifferently.

A proposition to annex Northern Idaho to Washington Territory is now being discussed in the localities specially interested. The Walla Walla *Statesman* says the idea is regarded with favor in the vicinity.

MR. EDMUND S. BEEBE, Manufacturer of Hats and Caps, New York, prefers the Grover & Baker Machine in his business to all others, because, "in the first place, it is a very simple machine and easily kept in order; the seam it makes is very elastic, and for thin fabrics, of which we use a great many, the seam is more durable in consequence of its elasticity." Wm. Currier & Co., Agents, 103 Front street, Portland.

THE LADIES are in a glow of delight over the *Family Dye Colors* from the celebrated manufactory of Howe & Stevens. They say the colors surpass anything at the dye-houses, and are very much cheaper. Sold by Smith & Davis.

DRY GOODS.—Ladies in want of any article in the Dry Goods line, would do well to call on KOHN & FISHEL, No. 91 Front street, (in the store formerly occupied by Weil Bros.) KOHN & FISHEL are selling their Dry Goods off at extremely low rates to make room for a large and new invoice shortly to arrive.

Buchtel's Photograph Gallery is the *only* establishment in Oregon that is thoroughly prepared to do *all* the *different styles* of work in the art. Photographs from card to life size. *The new cabinet cards, &c., &c.* Small pictures enlarged (retouched in India ink—painted in water-colors or oil by Mrs. S. J. Rumsey. Pictures that are fading can be reproduced in this way. All negatives taken in this gallery will be carefully preserved, and additional copies had. I have now on hand a very large collection of negatives, the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room.

HO! FOR RUSSIAN AMERICA!
$12,000!
Worth of Property to be Given away!
Great Inducements offered to Persons
WISHING TO VISIT THE COAST!

ON AND AFTER WEDNESDAY, MAY 29TH, TILL August 1st, 1867, the well known and fast sailing STEAMER
U. S. GRANT,
Will make Two Trips per Week to the
CITY OF ASTORIA!
Carrying Passengers at $10, the Round Trip, (Meals Included.)
The Boat leaves Portland Wednesdays and Saturdays at 7½ A. M. Returning leaves Astoria Thursdays and Mondays at 6 o'clock A. M.

Every person purchasing a Passenger Ticket will be presented with one of 900 Prize Tickets, to be drawn on the 1ST DAY OF AUGUST, 1867, for the following Prizes:
Steamer U. S. GRANT, to be divided into 4 shares;
ONE BLOCK OF LOTS IN EAST PORTLAND, divided into 8 shares, or one lot to the share, viz. Lots 1, 2, 3, 4, 5, 6, 7 and 8, Block 17, opposite the "New Columbian" Hotel, and at the terminus of the proposed Suspension Bridge;
ONE GOLD WATCH, worth $100;
150 CORDS DRY FIR WOOD, in 3 shares, to be placed on the Brooklyn Wharf.

The Steamer is 64 tons burthen, 52 horse-power engine, propeller wheel, draft of water 5 feet. She is being thoroughly refitted and refurnished as a Passenger Boat. The Boat will be delivered in perfect order, free from all incumbrance, and Warranty Deeds made for the real estate, to the persons drawing the same. Tickets can be had of C. P. FERRY, in Portland, where the money will be left on deposit till the prizes are drawn and delivered.

Any person having a claim against me, and wishing a ticket, can get an order for one by calling on me on board the boat. The person drawing the gold watch can have $100 in gold coin, if preferred.

C. P. FERRY, Broker, R. J. LADD, ex-Sheriff, AL ZEIBER, U. S. Marshal, and C. S. SILVER, Merchant, of Portland, are the Committee and Judges to direct the Drawing of Prizes. The Prizes will be drawn before the 1st of August, if all the tickets are taken before that time.

☞ The above liberal offer is made to the traveling public to enable the subscriber to pay his debts, and not with any reference to speculation, as all the property is valued at much less than its cost, (the Steamer alone having cost $11,000), and the price for carrying passengers to Astoria being much less than the usual fare.
Portland May 21, 1867. d2m J. W. KERN.

Notice.

OWING TO THE STEAMER U. S. GRANT having lost several regular trips, she will continue to run for a few weeks, to give all ticket holders an opportunity to travel. The tickets stand good for a passage as long as the boat continues to run. A few more tickets yet to be disposed of.

TO OSWEGO AND BACK.—In company with Mr. Ireland of the *Enterprise*, we paid a brief visit to Oswego by way of the White House and thence by the new road. The road recently cut out from the White House to Oswego is what may be called a very good mountain road, rising from the White House by a rather steep grade to near the summit of the range of hills, which it pursues for near a half mile, and then descending by another rather heavy grade to the table land on which Oswego is built. The most of it—a distance of two miles—is a much better road than the average of country roads. At Oswego we found the Iron Co making all possible dispatch in preparing the works for a beginning. They have accumulated several huge piles of ore which workmen were stacking up in forms to be roasted for the purpose of consuming the earths, and preparing the ores for smelting. The vast sheds near the furnace are being filled with charcoal, an immense quantity of which is to be got on hand before smelting operations will be commenced. It is expected that when the smelting is begun, the daily consumption of charcoal will be from 1,200 to 1,600 bushels per day. When it is considered that the furnace when heated is intended to be kept going constantly for months, consuming not less than 438,000 bushels of coal in a year, some idea may be obtained of the necessity of advance preparations, and of the great numbers of men whom the company must necessarily employ in coaling alone. There are yet some portions of the machinery to be completed before the furnace will be heated, but as the advance supply of coal has not yet been secured, this is not creating any delay. Everything about the works has been built in the most substantial manner and at a vast outlay of money. The stone masonry of the furnace and tower will compare creditably with anything of the kind in the United States. It is now expected that the works will be put in active operation about the 15th of August.

In the village on the hill, Mr J A McDonald has a store and is putting up a building in which Jake Bom will soon open a restaurant. Mr. McDonald will have the postoffice (a new one), formally opened about next Saturday. There are now two hotels in the village—one, the "Globe," and the other the "Capital." Mr J. C. Trullinger has a fine and costly dwelling nearly completed, and other buildings of lesser note are in course of construction. The residents of Oswego and employes of the Iron Company number now about seventy-five. This number will, of course, be largely increased when the iron works get to smelting. At the White House there was nothing going on except the quiet training of a couple of race horses. The McAdamized Road Co. have men employed in putting the road in thorough repair.

STATE TEACHERS' INSTITUTE.—Pursuant to notice the State Teachers' Institute met yesterday at 10 o'clock A. M., at the Central school house in this city. There were about fifteen members present. In accordance with the previous custom of the Institute, the election of officers for the ensuing year was made the first order of business. The result of the election was as follows:

Rev. O. H. Atkinson, President; Prof. T. M. Gatch, and Messrs. J. Jailing and E D Shattuck, Vice Presidents; J. P. Garlick, Recording Secretary; B. K. Warren, Corresponding Secretary, Mr. Perslam, Treasurer. The Institute then adjourned till 2 P. M.

AFTERNOON SESSION.

The Institute met pursuant to adjournment and the following subjects were discussed: Mental Arithmetic, Written Arithmetic, How to secure regular attendance at our public schools. The discussion of these subjects occupied the afternoon till near five o'clock, and drew the close attention of the teachers present. At 5 P. M., the Institute adjourned to meet at the same place at 9 o'clock this morning.

The attendance from places outside of Portland was limited, but many more are expected in to-day. The notice of the meeting had only been published a few days and had circulated but little in the interior; hence many teachers and others who had intended to come here and be present, were unaware of the meeting until perhaps too late to get here. Messrs Mattoon, from Marion county, and Henderson, of Eugene City, came down last evening. Mr. Mattoon says he only heard of the meeting through the *Unionist*, published the day before. He and, perhaps, others of that county thought the time had not yet arrived. However, there is likely to be a sufficient number present to make an interesting session. In former meetings the ladies have constituted a considerable proportion of the visitors and many of them have been active participants in the proceedings. We presume the Institute will welcome their attendance and assistance at this session.

RECORDER'S COURT.—Yesterday morning John Williams, a colored individual, was arraigned for a misdemeanor in defacing the door and window of a rival boot black, on First street, by daubing them with coal tar. He pleaded guilty and was sentenced to pay a fine of $60—in default of which he was committed to the jail for thirty days. Deputy Marshal O'Connor caught him in the act Monday night just after 12 o'clock. When Mr. O'Connor called on the darkey to "come along," the two immediately formed themselves into a procession in the following order: 1st, the darkey two rods in advance bearing his kettle of coal tar and a brush of feathers, 2d, Mr O'Connor, with a cane and a policeman's whistle. The procession moved at once at a rapid pace (which means a keen run,) up First to Alder street; thence up Alder to Second; (here darkey was one rod in advance); thence up Second to Morrison; up Morrison to Third; up Third to a point where both parties were about blowed out. Darkey executed a flank movement and became invisible; officer halted and reconnoitered. This sort of thing lasted about a minute when darkey was found closely embracing the side of a house as if desiring to avoid further associations with the pursuing officer. When collared he protested he "hadn't done nothin' to nobody," but nevertheless, he slept in jail the balance of that night.

CIRCUIT COURT, SHATTUCK, JUDGE.—Proceedings of Tuesday, July 30th:

Joseph Helmuth vs. John Collins; verdict of jury for plaintiff, that he is entitled to a return of the property described in the pleadings (a piano,) and value assessed at $62 50.

Mifels, Well & Co. vs. H. H. Snow, et al; demurrer to amended answer sustained with leave to amend.

Opitz & Shearer vs Wm. Butts; confirmation of Sheriff's sale of certain lands.

Wm. H. Delay et al. vs. W. W. Chapman defending as administrator of the estate of James L. Loring, dec'd; plaintiff elected to stand by demurrer to answer, the same having been overruled; decree for defendant for certain lands described in pleadings, as to that portion for which defendant defends, and the U. S. patent issued to the heirs of Joshua and Sarah Delay cancelled and held for naught, as having been wrongfully and fraudulently issued.

John Terwilliger vs. O. R. Rosenchrist et al; injunction ordered to issue in accordance with the prayer of the bill of complaint and W. Lair Hill appointed referee [illegible]

John Nester vs Charles Barrett; suit to enforce a mechanic's lien; judgment for plaintiff, on demurrer, for the sum of $597 62, coin.

A NEW B. B. CLUB TO BE ORGANIZED.—At the present writing, there are in Portland six organized base ball clubs, heard from. The returns are probably not complete. We are informed that a number of gentlemen who have not hitherto been suspected, are about to organize another club to be called the "Light-weights"—no member to weigh over 400 pounds averdupois, nor less than 300 pounds unless a confirmed cripple. The delay of a few days in organizing this club, is attributable to a disagreement among the proposed members as to the name to be adopted; some suggesting "Fleet-wings;" others contending for "Bully Cripples," while a few stuck hard and fast for "Lilliputian Gossamers." That difficulty has been happily overcome by the adoption of the compromise title of "Light Weights" and nothing now remains to prevent the ultimate happiness of the members, except the question of how many bases shall be planted. On this question the club is evenly divided—one-half being for a base every nine feet, while the other half think that too long a stretch between rests. Persons desiring to join this club will refer their qualifications—stating weight and whether a cripple—to either Capt. Couch or Capt. Dierdorff.

CLEARING OUT THE TUALATIN RIVER.—From Wm. C. Hitchcock, Esq., we learn that under the supervision of Capt. Edward Kellogg this river is being cleared of all obstructions to its navigation. He has with him a party of from eight to ten men, who are engaged in cutting down all the timber on each side of the stream. A distance of thirty-five miles has been finished up and all the timber cut in lengths short enough to enable the workmen to float them down without trouble. All the snags are being taken out and the bed is being thoroughly cleared of all impediments to navigation. Logs that measure from four to five feet through, laying under the water, are being sawed off and "snaked" out on the bank. The distance of the entire route is seventy five miles—thirty-five miles now complete, and forty yet to be finished. It will take about six or eight weeks to complete the enterprise.

BRIDGE ACROSS THE WILLAMETTE.—The local editor of the *Herald* yesterday published an item concerning the incorporation of a company for the purpose of constructing a bridge across the Willamette at this city, in which several errors of fact occurred, and we have been requested to make a correct statement. The facts as furnished us by one of the incorporators are as follows: The incorporators are L. M Starr, Phillip Wasserman, J. C Hawthorne and A M Loryea. The capital stock is $75,000, in shares of $100 each. Subscriptions will be received, the next two weeks. Parties have made offers to build the bridge for $70,000. The several points being equal, the location will be left to the vote of the stockholders.

DOWN THE RIVER.—The *U. S. Grant* arrived at a late hour Monday night from Astoria and way landings. The Captain reports that the *Fideliter* and the *Fullanburg* went to sea Monday morning. The *Grant* got on a new bar which has been raised about four feet by the late freshet in the Columbia, just this side of St Helens, and was detained for some time. Where she grounded is not, however, in the channel; but ordinarily, there has been plenty of water there at this stage of the river.

OREGON CITY ITEMS.—A telegram from Oregon City last evening, says: James McNamara was arrested to-day on the complaint of James Dolan for assault with a deadly weapon and was bound over by Justice Moore in the sum of $1,000 for his appearance at the next Circuit Court. ——A match base ball game played between the second nine of the Clackamas Club and the first nine of the Highland Club, resulted as follows. Clackamas 75, Highland 67.

AN EXPLOSION.—At the lumber mills of Carter, Hayden & Co., yesterday, a steam connecting pipe bursted, stopping the machinery and considerably frightening the employes near. The detention of the works, consequent upon this accident, will probably last a couple of days. The damage otherwise is not great.

ORGANIZED.—A base ball club was organized yesterday in the third ward, called the "Young America" club. The play ground is on market square and the first meeting for practice will be Thursday afternoon, at half past five o'clock.

FOR YAQUINA.—Purser Hiles and Purser Church are going to start on Monday for Yaquina to be absent a couple of weeks. Woe to the clams! Woe to the cohogs! Woe to all the eicaterras, the innocents, of Yaquina!

NOTICE.—The Athletic Base Ball Club will meet on their grounds for practice this evening at five o clock. All the members are requested to be present.

TREASURE.—By the *Cascade*, yesterday, Wells, Fargo & Co., received treasure to the amount of $10,000 from the Columbia towns, only, there being no connection with the mining districts.

OREGON APPLES.—Oregon summer apples appeared in market yesterday. They are immensely superior in size, quality and appearance to anything yet sent here from California.

WILLAMETTE FREIGHTS.—Arrived per steamer *Senator*, yesterday, 360 qr sks flour, 77 bales wool, 22 bags oats, 78 sks food and 10 boxes green apples.

AT VICTORIA.—Johnny O'Neil, late a favorite actor in Portland, is playing with the Marsh Troupe at Victoria.

FINE DRESS COATS at Bergman Bros., corner Front and Morrison streets, for $20.

SHERIFF'S SALE.—Sheriff Stitzel will sell on Thursday, August 1st at 10 A M, at Silas L Adams' place on Sauvie's Island, Multnomah county, six head of horses, five head of cattle, fifteen head of hogs, and one sett of harness, taken on execution. Sale for U S. gold coin.

Letter from San Francisco.

SAN FRANCISCO, Cal., July 23, '67.

EDITOR OREGONIAN:

During the past week business has been exceedingly dull. The attention of our business people have been especially called to the probabilities of the depreciation of gold as a medium of exchange; and it is generally believed that the Bank of California will, at the close of this year, become a National Bank; as the impression begins to prevail among moneyed men that with the result of this year's crop, and a movement favorable by Government, we shall have national paper at par in specie during 1868.

Among the men who have evinced in the past discernment and patriotism, may be mentioned Hon. H. W. Corbett, who, in 1864, stated to the writer that greenbacks would be equal to gold in '69. The writer has no special acquaintance with Mr Corbett, but suggests his soon being made Secretary of the Treasury under the next President, who, it is thought here, will be Edwin M. Stanton. Mr. Stanton has, in the past six years, proved himself to be the great statesman of our times. In New York, Pennsylvania and Ohio, there is, among Union men, but one candidate for President, and that is in the person of Mr. Stanton, whose nomination is here, as in those States, almost a foregone conclusion. What do your readers say to a ticket, very likely to be formed, as follows: For President, Edwin M. Stanton, of Pennsylvania; for Vice President, Schuyler Colfax, of Indiana? These are able statesmen of tried worth. The inclination of the country is to select a civilian and not a warrior. In the present corrupt time serving administration Stanton stands as a pillar of strength to truth, justice and honor. The course he has taken in the present as in the past administration, greatly endears him to the Union masses everywhere in the Eastern States. He exercised a powerful intellect in putting down the rebellion.

The new Merchants' Exchange, on California street, promises to become a great success. In political matters there is considerable excitement. One of our leading journals publishes the following item, viz:

> It is a matter of great satisfaction to those who heartily desire the success of the Union cause, to see how the calumnies which have been freely hurled against the head of our ticket are rebounding upon their authors. There can be no doubt that a great change of opinion is going on in this respect among those who at first were disposed to regard Mr. Gorham with anything but favor; and if it should continue, by the time of election he will be the most popular candidate yet put before the people of California. His pluck, energy and candor are disproving in the minds of the masses all that his enemies have said; while his unquestionable ability and sense of honor are daily adding to the number of his friends.

The *Times* has a very complimentary article in reference to Hon. John H. Mitchell, of Oregon, and yesterday published Mr. Mitchell's speech in free trade with the Sandwich Islands delivered two or three years since. At that time the press here seemed to think the principles advocated by Mr. Mitchell wrong, while Horace Greeley very promptly republished the speech and said, "all right for Mitchell." The recent treaty only carries out the views of your rising young statesman.

The OREGONIAN is appreciated here, and its correct course in defence of sound principles properly appreciated in our first circles.

⁂

An ex-United States officer made an attempt to establish a Republican paper at Corpus Christi, Texas, at the invitation of the Union men of the county. The Union sentiment, however, did not prove strong enough to sustain the enterprise, which was abruptly "closed out" as the editor naively says, "by an incendiary fire, with no clue to the perpetrator." Nothing but the presence of United States soldiers prevents other Union papers from being "closed out" in the same manner. It appears there are not troops enough to protect them all, and, under Stanbery's interpretation of the Military bill, there would soon be none left to require it.

PERFECTLY ENRAPTURING!—Such were our feelings as we stepped into the Music and Art Gallery of W. T. SHANAHAN, on First street, a few days since, and listened to the delightful tones and harmony which came from one of Mason & Hamlin's Cabinet Organs. From the soft breathing flute tones to the thundering bass of the pipe organ, all was equally free and sweet. And why is it other makers cannot produce instruments like these? Mason & Hamlin were the first to introduce the Cabinet Organ, and have gained such world-wide notoriety that it requires the work of two large factories to supply the demand for these valuable instruments.

If, as the old adage declares, "Health is the Greatest earthly Blessings," then every effort to preserve it pay well.

DRAKE'S PLANTATION BITTERS

Have been of great service in making people healthy, and keeping them so. They should be found in every household.

They give tone to the Stomach, vigor to the body, and remove dark doubts and unhappy feelings from the mind. They relieve pain and fortify the whole system against the attacks of disease.

There is nothing better to take "for the Stomach sake" than the PLANTATION BITTERS.

They cure Dyspepsia, Heartburn, Indigestion, Drowsiness, Headache, Pain in the Side, Liver Complaint, and Rheumatic Pains, with magical power.

A good effect is felt at once upon making the first trial. No change of diet is necessary. Eat the best you can get and all you want. Follow our directions and you will soon feel

WELL, STRONG AND HEARTY.

A great many side hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhœa, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They are the best Bitters in the world. They make the weak strong, and are exhausted nature's great restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c., will find *immediate* and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label.

Beware of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

Mustang Liniment.

OVER A MILLION DOLLARS SAVED!

Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."
J. L. DOWNING.
Montgomery, Ala., June 17, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. J. W. HEWITT
Foreman American, Wells, Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.
Gloucester, Mass., Aug. 1, 1865. ED. SEELY."

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Lyon's Katharion.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Katharion will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make a cheap and reliable article for culinary purposes. Sold everywhere at 50 cents per bottle. Ask for "LYON'S" PURE EXTRACT. Take no other.

CAUTION—See that the private U S. Stamp of Demas, Barnes & Co is over cork of each bottle. None other is genuine.

Lyon's Flea Powder.

DEATH TO FLEAS.—It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but strictly harmless to the human species and domestic animals. The genuine has the signature of E. LYON, and the private stamp of DEMAS, BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Bilious Remittent Fevers. Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;

Steadies the Nerves and tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

The Red School-house.

I passed it yesterday again,
The school-house by the river,
Where you and I were children, Jane,
And used to glow and shiver,
In heats of June, December's frost,
And where, in rainy weather,
The swollen road-side brook we crossed,
So many times together.

I felt the trickle of the rain
From your wet ringlets dripping;
I caught your blue eyes twinkle, Jane,
When we were nearly slipping;
And thought, while you in fear and glee,
Were clinging to my shoulder,
"O, will she trust herself to me,
When we are ten years older!"

For I was full of visions vain,
The boy's romantic hunger;
You were the whole school's darling, Jane,
And many summers younger,
Your head a cherub's used to look,
With sunbeams on it lying,
Bent downward to your spelling-book,
For long and hard words prying.

The mountains through the window-pane
Shower over you their glory;
The awkward farm-boy loved you, Jane;
You know the old, old story!
I never watch the sunset now
Upon those misty ranges,
But your bright lips and cheek and brow
Gleam out from all the changes.

I wonder if you see that chain
On memory's dim horizon?
There's not a lovelier picture, Jane,
To rest even your sweet eyes on.
The haystacks each an airy tent;
The notch a gate of splendor;
And river, sky and mountain blent
In twilight radiance tender.

I wonder—with a fitting pain—
If thoughts of me, returning,
Are mingled with the mountains, Jane;
I stifle down that yearning.
A rich man's wife, on you no claim
Have I, lost dreams to rally;
Yet Pemigewasset sings your name,
Along its winding valley.

And once I hoped that for us twain
Might fall one calm life-closing;
That Campton Hills might guard us, Jane,
In one green grave reposing.
They say the old man's heart is rock;
You never thought so, never!
And, loving you alone, I lock
The school-house door forever.

THE BOSTON EXCURSION—THE START AND PROGRESS UP TO THE BEGINNING OF THE MASONIC FESTIVITIES.

TREMONT HOUSE, BOSTON,
(wich is in the Stait of Massachoosits,)
June 25, 1867.

The Raleigh trip scarcely over, His Serene Highness determined upon acceptin the Boston invitashen. His corejel recepshen in North Karliny give him a sort uv appetite for popular applause and he determined upon tryin it in the North agin. At the Cabinet meetin held to discuss the question Seward expressed a desire to go; Welis follered Seward, but Randall, who, sence the decease of Sir Isik Newton, is considered the stoutest man connected with the Adminestrashun, and therefore assooms diktatorial airs, opposed it. "But," sed Johnson, "I feel ez though I must make one more effort to save our errin Southern brethren."

"Mr. President," retortid Randall, "I recently went to raise a corner stun to the memory of your lamentid father, who deceast in 1812, onto wich wuz engraved these words: '

Jacob Johnson; died from the effex uv a disease superindooced by an over effort to save his friends from drownin.'

Now ef you persist in your juncey I shall be compelled after a time, in my quiet Wisconsin home where an appreciative constitooency will permit me to forever stay, to indite an epitaff for the corner-stun over your polititkle grave, wich I shel do thus:

Hicjacet ANDREW JOHNSON,
who died from the effex uv a disease superindoosed by over effort in a great many attempts to save his polititkle friends from bein strangled.

"POSTSKRIP—The friends wusnt worth the savin."

"But upon second thot I've no objeckshun to this tour. Yoo kin do us no damage ef yoo deliver only sich speeches ez we determine before hand. Yoo go thro Delaware, which is ourn; Noo Gersey you've bin thro wunst, and they know what to expect. New York will give a enthusiastic recepshun, ez Morrissey and Wood will take holt uv it. Seward telegraft 'em—and in Connecticut yoor certain uv a corjel recepshun. That State is full uv demoralized Yankee Dimokrats who hev bin out to Michigan and left all their Puritanism, bringing back with 'em in its stead all the cussidness indigenous to that soil, wich cussidness, grafted onto their natural cuteness, makes 'em rather a despisin in theirn worthlisnis. In Boston the time prospeck is good. There'll be a immense crowd present to dedicate the Masonick Temple, wich we shell claim the credit uv bringin, ez we did the throngs wich come to see us on the tour North last wich wood persist in hollerin 'Grant!' The trooly good men uv Boston are Ablishunists, but there's some thousand wich want offises, and them with a sprinklin uv Dimokrats and Conservatives, ought to make us a handsome recepshun. There is yet men in Boston who used to return fugitive slaves, and there is besides, the eminently respectable gentlemen who are so conservative that they hold onto sin becos its old and established by precedent, and so aristocratic that they won't do right becos doin rite is a quite common thing in the seckshun; who hold onto the sole tale uv progress and holler "Stop!" and who, ef they tie theirselves to a good cause, load it down with her dignity. Like the 2d Lootenants of 61 their baggage is worth mor'n they are. But the trip won' hurt us. You can't make the Ablishunists more Ablishn, and them ez foller us for the loaves and fishes we dispense wood still foller us ef the road we took led as strate through perdishen ez a pigeon wood fly. It may be that it's the method by wich we shall finally carry Noo England. Pope sez:

"Vice is a monster uv such hijus mein,
That to be hatid needs but to be seen.'

Now ef we follered the poet no further we should never go; but each one would keep ez close in his respective apartment ez possible. But knowin mankind, he goes on:

"'But seen too oft, familiar with its face,
We first endoor, then pity, then embrace.'

"That's it. We must be seen too oft. We must make 'em familiar with our face. Ef we stay long enuff, I don't despair uv seein Boston given you an ovashen, and seein you locked in the arms uv Wendall Phillips. Ef they commense pityin you, the reaction will take em to embracin, and it seems ez though they ought to be at that point by this time. And then if you make this toor and say nothing idiotik, the very novelty uv it will direct attention from wat we've decided to do with Sheridan, Sickles, Pope, et al. It will bewilder the peeple."

And so it wuz decided to go. Thro Delaware the recepshens wuz all that we desired, and in Maryland the people came in crowds to greet us; tho the cheers took so much the nacher uv fearful yells wich the Confederit sojers employed when they charged that Sekretary Seward's nerves were shocked. Ez Philadelphy didn't offer us the hospitalities uv the city, we didn't stop there at all. The train run around it, the President's nose bein elevated all the time ez tho he smelt suthin. When it had finally passed, Randall announct the fact, and the Presidenshel face assomed its usual benine expression ez we glided into the sacred soil uv Noo Gersey.

In Noo York Morrisey has done his part. Ther wuz respectable bodies uv cheerers at the pints agreed upon and, ez they hed bin paid librally, the spontaneous enthoosiasm wuz ez good in quality ez it wuz large in quantity. Occasionally, a cheerer wich hed taken too much uv his wages in advance, would welcome Jeff'son Davis, but it wusn't notist. It didn't mar the pleasant uniformity uv the proceedins or strike anybody ez being singler. They tried terrible hard to get a speech out uv us, and the President wuz willin, but Randall seein that the *Herald* and *Tribune* hed reporters present, suppresst him, and got him off to his bed comparatively sober, and at an early hour.

Arrivin at Boston, I wuz surprised at the length, depth and bredth of the enthusiasm wich greeted us. Ez ef to show ther greef at the death uv Presidents, we notist everywhere the portraits uv our predecessor, Linkin, draped in mournin, at wich the President dropt a tear, sayin, "See how they mourn us wen we're everlastingly gone!" Ther wuz a sort uv subduedenthusiasm, a kind of half mournin gladnis, ef I may say so, wich wuz gratifyin.

We wuz received by Gov'nor Bullock, whose speech wuz a noble triboot to the President. "I welcome yoo," sed he, "to Massachoosits. Many Presidents hev visited Noo England, and this visit, like theirn excites devoshen to the Yoonion and respeck from them, wich in their offishal posishen, respeck the Government of the whole country. Our desire is to manifest our regard for those who, in offishal capacity, respeck the Nashenel Yoonion, wich is to say we respeck the Nashenel Yoonion. I trust the President will stay long enough to enable us to manifest our high regard for—(here the President's face brightened up) YOUR OFFIS! (The President turned frightfully red, which Bullock, whose principles wuz a rasslin a back holt with his politeness, notist, and he added) AND TO YOU, PERSONALLY.

Ez them last words issued slowly and despritly, the President's face lighted up. He tendered him thanks for the recepshen. He woodent undertake to conceal emoshens wich agitated him at the personal welcome upon the soil of Massachoosits, as he wuz in the habit of doing further South, ez those afore him wuz probably ez familiar with it ez he wuz, but he wood assoor em, for their encouragement, that the histry of Massachoosits, in connection with the histry uv those States, hez become part uv the histry of the country, and therefore in visitin Massachoosits under sich pekooliar circumstances it is pekoolarly gratifying to receive sich a welcome. "In regard to your remarks techin the preservashun of these States, I trust I may say, without egotism, a vice which I may say no one is more singlerly free than myself, I yield to no patriot livin or dead in my devoshen to that purpose. I dislike speekin, ez I kin trooly say that I am not loquashus, but when trooth wich I love, and the coz of humanity wich I tie to, is at stake I hev spoke. I may say without egotism that I live for principle and I thank the people of Massachoosits which my visit hez drawd to Boston for the outburst okalled by few and excelled by none ever given a President in the Yoonited States or elsewhere, and it is my prayer that comin in contact with me will do the people of Boston good. Yoor remarks, not referrin directly to me, on the Rooshin purchis and a more economical collecshin uv the internal revenue, also meets my corjel approbashen, lovin ez I do my common country."

Randall pulled at his coat tail, when the President remarkt that he might say without egotism that he didn't desire to make a speech, and stopt. We brought him off in comparative good order. We stopt at the Tremont House. It is a good hotel, and the waiters are ez they ought to be, niggers. Its soothin to a troo Demekrat to be waited on by a nigger. You kin damn a nigger waiter, but put a white man in that persishen and yoo feel a delikasy about it. When we retired the President insisted that I shood sleep lyin across the doorway uv his room.

"Why?" asked I.

"I am in Boston," he replied, "where they stun the prophets. Boston dislikes me. Boston wears to-day a smilin face, but wot kind uv a heart does that smilin face conceal? Sumner lives in Boston, and so does Phillips—in Boston they elect niggers to the Legislacher, and are tryin to stop the sale uv whisky. Wot kind uv a place is that for a Demokratic President to trust hisself into? Yoo sleep across my doorway, and ef a band uv Ablishunists, doomin me their foe, shood stryve to enter, they wood first hev to sheath their daggers in yoor body. Meanwhile I wood escape, and continyue to live in my beloved country. Yoo cood, by preparin a few impressive last words, make a gorjus death uv it and do the cause good. For instance, ez Sumner stuck you, you cood gasp, 'Slay me but spare A. J., the hope of the republic.' Or, ez Wilson struck you down with a bludgeon, yoo mite exklaim, 'I die willingly for the Constitution with 36 starsonto it.' A little quotation from any uv my speeches, joodishusly throwd in, under sich circumstances, wood do good. Yoo will sleep there to-night, and remember, in case you are called upon to die, the proper quotashens."

Seward concurred but Randall objected. He didn't anticipate any danger. Ef Boston wants to get rid ur the President they hev a shorter way than assassination. Rash politishens only assassinate them wich they cant find cause to impeach. But he wuzn't afraid uv Bostonians. We stood a better chance uv dying uv excessive hospitality in Boston than uv bein stabbed. Our stumachs mite protrude in Boston, but our bowels never. Boston would feast us, for there are enuff men in Boston who want position to keep us a goin a year or two. He feared dyspepsia more than daggers, and he hed no fears about the wine bein pizened.

Nevertheless I wuz forst to sleep in that polishon, wich I did, wakin up in the mornin ez sore and stiff ez a plow hoss. I dont know how far the trip will be extended.

THE CHASSEPOT GUN.—Some trials of the Chassepot gun have lately been made at Versailles by the Chasseurs of the Garde. The following details on this new weapon will be interesting. The Chassepot gun carries 1,000 meters with astonishing precision; it is furnished with a kind of India-rubber stopper, that hermetically closes the chamber of the barrel. The needle is very short. This gun can be fired fifteen times a minute, but in practice it is limited to eight; beyond this number would be dangerous, as regards accuracy of aim, and using up the ammunition too quickly. The gun is very light, weighing only four kilogrammes; the form is elegant, and the stock adapts itself perfectly to the shoulder. The ball is very small; this is an advantage, as a greater number of cartridges may be carried. At the end of the barrel a sword bayonet is fixed. The Chassepot gun is superior to the celebrated Prussian Needle Gun, which only carries 400 meters; the needle also of the Prussian gun is too long and easily broken. The soldiers of the Chasseurs a-pied, being now accustomed to the gun, have obtained wonderful results with it, especially at 1,000 meters range; at this distance the bull's eye has been hit no less than thirty times out of a hundred.—*English Mechanic.*

PRENTICE ON FEMALE SUFFRAGE.—The subject of letting women share the right of suffrage is a good deal agitated. Why not let them have it all? Men have monopolized it for six thousand years, and why not let the women monopolize it for the next six thousand? Is there any danger that they would make a worse world than we have done?

CRINOLINE.—The French women will not give up crinoline, and this is the conclusive argument of one of them: "My sister is lean and nearly as tall as a cocoanut tree; I, on the contrary, am a little too well provided with *embonpoint.* But, thanks to the crinoline, which adds to the one and somewhat diminishes the other, we pass both of us for women remarkably well proportioned."

In all cases of Diarrhea, Dysentery, and the prevailing fevers consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should enter upon the exposed camp life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation, fail to have recourse to the Bitters.—Sold by all Druggists and dealers everywhere.

LEFFEL'S

AMERICAN DOUBLE TURBINE

THESE WHEELS, unequaled and unrivaled in the United States or the world, have been fully tested on this coast, more than forty being in use at this date, driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c., &c.

On account of the late calamity to the OREGON IRON WORKS we have lost a few Wheels, but of these sizes we have a good supply, therefore those contemplating using this Wheel need not be disappointed, but forward their order at once, accompanied with the CASH, which we *now* need more than the Wheels.

We cheerfully refer to all using our wheels, and are assured that *all will affirm that our wheels accomplish all and even more than we claim for them.* Address

Medical.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of those fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

TO THE LADIES.

The various complicated and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness, etc., will be speedily cured, without poisonous drugs, injuries or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or sending for packages of medicines, may rely upon his assurances of confidential secrecy with implicit faith, and expect no more than to be charged with, a fair, and mutually satisfactory remuneration for services rendered, considering the circumstances and difficulties of cases, rather than a too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian.*

DR. HENLEY'S

Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARrive when a new direction is imparted to its course. These epochs proceed from discovery of new facts shedding a light which changes the whole aspect of the science. The present is an epoch of this kind, and this Great Remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood. The FOUNTAIN OF LIFE is composed entirely of vegetable extracts; it contains no Mercury or other mineral substance.

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything, from the days of Æsculapius down to the present time, in the arcana of Medical Science, which can vie with or excel the intrinsic properties of this Great Blood Purifier. Its value has been tested with the happiest effect in the most obstinate cases of scrofula, that baffled the skill of the most eminent physicians in the world. No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER. Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE, might now be enjoying the blessings of life and health. It requires an article of real merit and intrinsic value to sustain itself. During the stern ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial, and not been found wanting.

Dr. HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world, and eradicate the disease entirely from the system, or no charge made—provided they will secure him his pay when they are cured.

FOR REFERENCE:

I would refer you to L. L. Peck, of Portland, Oregon, and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years.
